Overview

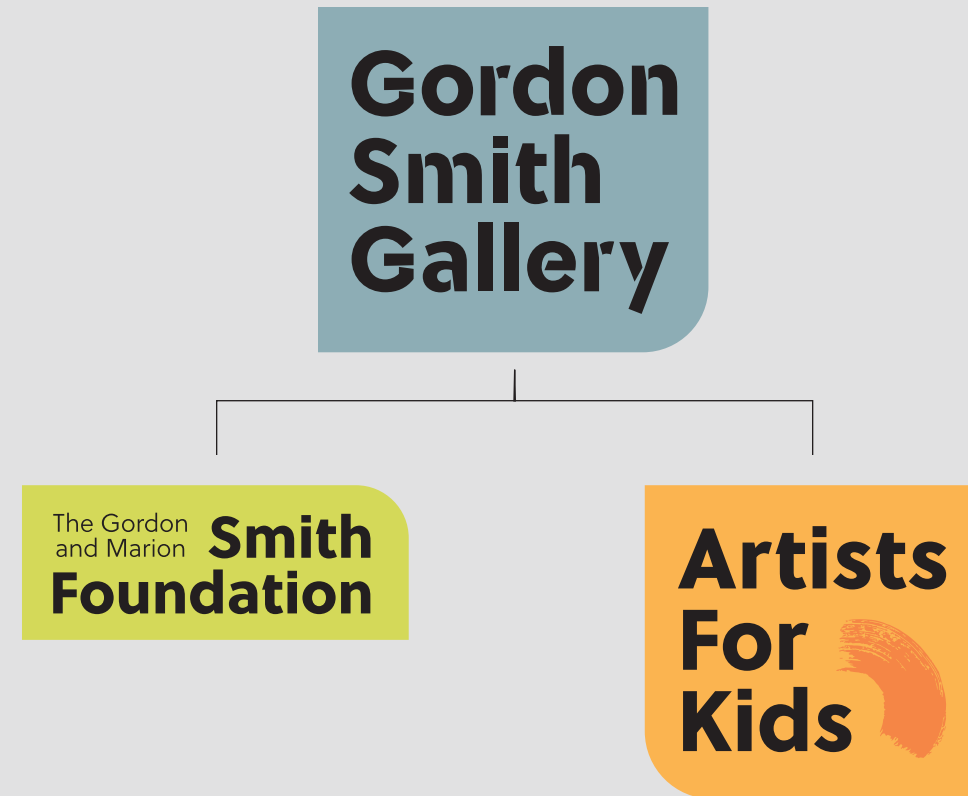

The focus of this new branding is to use the Gordon Smith Gallery as the overarching umbrella identity that encompasses both Artists For Kids and The Smith Foundation.

In most cases all three logos should be used together in clusters, with the hierarchy based on the appropriate choice for the content or programming.

Due to the complexity and depth of programming offered by these organizations, the identity needs to be flexible to provide clarity to the public and avoid confusion. Therefore, some special use options are also provided.

POINTS OF FOCUS

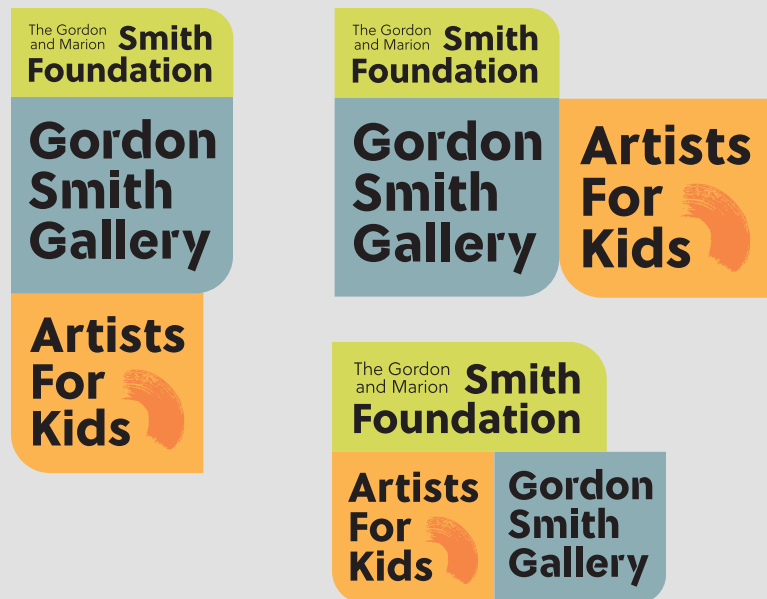

- Do not refer to Artists for Kids as "AFK".
- Focus on clarity of messaging to the public, specifically in instances where programming is for children only, children's work vs professional artist's work, adult audience as the priority.

Logo clusters

EQUAL

- Use these options for when all three organizations are represented equally.

GORDON SMITH GALLERY

- Use these options when the gallery is the primary focus.

* SEE GS LOGO CLUSTERS DOCUMENT

Logo special use

ARTISTS FOR KIDS

- Example of logo usage when the asset or programming is for children only, in the schools, and inclusion of other logos would confuse the main audience / general public.

THE GORDON SMITH GALLERY

- Example of logo usage when the asset or programming is professional art, adult audience is the priority and inclusion of other logos would confuse the main audience / general public.

Typography

Soleil is used for everything from headlines to body copy and is the base of the brand lettering forms.

**HEADLINES ARE
IN EXTRABOLD AND
SET IN ALL CAPS.**

**SUBHEADINGS ARE ALSO
EXTRABOLD AND ALL CAPS.**

Intro "Deck" paragraphs are set in Soliel Bold.

The regular weight is used for body copy. **Soleil bold** can be used to highlight text.

Short caption-style text is set in Soleil light.

Alternative fonts

Certain instances may require an alternative font to Soleil. In online and google applications, where Soleil is not available you may use Poppins as a substitution in the weights outlined here.

We use Arial for email signatures and any other instances where a system font may be required.

Do not use any of the following fonts as a general substitution if Soleil is available.
